

In this document you have 18 different terrain pieces to be used with **Dust Tactics**.

This terrain pieces are 9cm x 9cm x 6cm so it will fit perfectly in DT standar terrain tiles.

Even if this terrain elements are thought to be used with Dust Tactics, you can still use them for any other game.

Building them is quite simple, you only have to glue the "metal" sides to form some kind of reinforced pyramid, just like in the image below. If you don't want to glue you can even use a stappler! (emergency use only).

Once built you can flat them out for storage (quite handy feature).

You can get this and much much more at:

If you have any suggestion or want to leave some feedback, you're much welcome!

En este documento tienes 18 modelos diferentes de elementos de escenografía para usar con el juego **Dust Tactics**. Éstos son de 9cm x 9cm x 6cm, por lo que encajan perfectamente en el tablero de DT. Aunque estén pensados para Dust Tactics, puedes usar estos elementos en cualquier otro juego.

Construirlos es muy sencillo, basta con pegar juntas las partes que simulan metal para formar una especie de pirámide reforzada, tal y como se ve en la imagen inferior. Si no tienes pegamento puedes incluso usar grapas!

Una vez contruidos puedes aplanarlos para guardarlos ocupando el mínimo espacio. Algo de lo mas práctico.
